

The Tenth Student Himalayan Exercise Tour

-Call for Participants-

In March 2021, 13 days with less than 1200 USD

(Recommended by six academic societies including the International Association for Gondwana Research, Nepal Geological Society, etc)

Studying the true nature of an Orogen in the Himalaya!

The tour covers the course Kathmandu-Pokhara-Muktinath-Pokhara-Lumbini-Kathmandu using a chartered bus or jeeps. More than 30 Japanese and Nepalese geoscientists who are familiar to the Himalaya are registered to voluntarily work as a geo-guide and tour leader to show students in the field the beautiful Himalayan geology and nature. All necessary expenses including lodgings, foods, chartering vehicles, employing sherpas etc are included in the above cost. Some Japanese and Nepalese universities decided or are under consideration to give a curriculum point to participated students.

Program* of this exercise tour started in 2012 and the 2021 tour is the 10th tour. Report e-books (mostly in Japanese with some English summaries) assembling reports by all participants has been published every year and are served for free downloading by the URL and QR code below.
