INTRODUCTION

The 2022 Annual Convention of the International Association for Gondwana Research (IAGR) and 19th International Symposium on Gondwana to Asia will be held in Chengdu, China, during September 23-27, 2022, organized by the Chengdu University of Technology, jointly with the IAGR.

The conference will commence with registration and ice breaker on September 23, and oral and poster sessions for 2 days during September 24-25, 2022. Subsequently, a 2-days field excursion will be conducted in the Emeishan Large Igneous Province (LIP) and related areas during September 26-27, 2022.

The IAGR annual conventions and Gondwana to Asia international conference series provide a global platform for presentation of new information and exchange of scientific knowledge on the history of supercontinents, cratons and continents, major orogenic belts, life evolution, resources and environment. The annual conventions of IAGR have high reputation as venues for the advancement of science, and one of the best platforms for interaction with renowned geoscientists. The focal themes for the 2022 conference are as follows:

- Continents, cratons and supercontinents
- Tectonics and metallogeny
- Life evolution and surface environment
- Sedimentary basin evolution and petroleum system

The official language of the conference is English.
